cooling personal spaces

simply select
your desired
sleeping climate

The perfect sleeping climate at the touch of a button

Feeling hot and sweaty at night? Simply select your preferred cooling level, lay back and experience pure delight while cool air gently drops down on your bed.

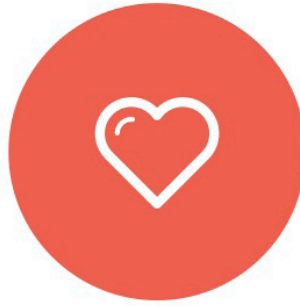

Comfortable

After selecting your preferred sleeping climate, cool clean air gently spreads over the surface of the bed and all that is left are the sounds of the night, carrying the promise of a good night's sleep.

EveningBreeze

Comfortable, comforting and revitalizing. Forget noise. Forget draft.

Healthy

Evening Breeze creates a cool and pure climate for you to sleep in, leaving the rest of the room in its natural state. Clean and fresh air gives you a healthy environment throughout the night.

EveningBreeze

No more dry skin, sore throats and nasty colds.

Effective

The micro-climate created around your bed drastically decreases the energy needed for your sleeping comfort. This means lower monthly energy bills and a significant impact on your carbon footprint.

EveningBreeze

Higher comfort with a clear conscience and lower energy bills.

breath clean
and healthy air
